

Please Support our Mission for Nature !

THE NATURAL BURIAL ASSOCIATION is an independent, non-profit organization established to:

- Reduce the environmental impacts of conventional death-care practices and,
- Acquire and permanently protect natural land for burial for the benefit of people and the environment.

Currently, the Natural Burial Association (NBA) has an active website, Board of Directors, office in downtown Toronto, and working partnerships with natural death care providers, cemetery land owners, and funeral directors.

Please support the Natural Burial Association's efforts to acquire, protect and enhance natural

spaces across Canada. Your support can be a driving force towards the permanent protection of our most important and vulnerable natural spaces, while reducing the excessive environmental footprint of conventional funerals.

Please see naturalburialassoc.ca for more information.
